## Our Journey — From Roots to Global Reach

Photo of mine , which I will give you letter but for reference add by yourself.

#### Dipak Patel (Co-Founder & Managing Director) — From Technology to Trade

After completing my **Bachelor's in Computer Science from the University of East London**, I always knew that innovation could empower traditional industries — especially agriculture. Coming from a **farming background**, I had seen the hard work and dedication that goes into every harvest. During my university years, I began selling our family's produce — **wheat, rice, and cumin** — to local stores and restaurants. That small initiative planted the seed for something bigger: connecting India's rich agricultural quality to

#### Pankaj Patel (Co-Founder & Director – Procurement & Trade Relations) — Turning Tradition Into Opportunity

Having completed my graduation from **SAAL College**, I shared the same passion for agriculture and entrepreneurship. Growing up in a farming family, I understood both the challenges and potential of this industry. Along with XYZ, we began trading our homegrown produce locally, building strong relationships and learning the real essence of trust and quality in business.

#### Our Shared Vision

*"Two friends from farming families, one dream — to take India's finest rice and spices to global tables."*

Together, dipak patel and Pankaj patel founded **Patel Prime Impex Pvt. Ltd.**, transforming their early passion for agriculture into a trusted global export company. Their journey — from selling local farm produce to building an international trade brand — is rooted in authenticity, partnership, and an unwavering commitment to quality.
